## **CONDITIONS OF SALE.**

### **Please Read Sale Terms Before Bidding.**

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are **strictly for cash.** Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

**Be sure you bid on the lot you wish to buy.** We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

**Important Notice.** We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

No priced catalogue will be furnished of this sale.

## FRANKLIN'S SUGGESTIONS FOR A COPPER COINAGE FOR THE UNITED STATES.

He lists in a letter some of the quaint and homely mottoes to be used.

That remarkable American Benjamin Franklin, the most versatile of all of our ancestors, was deeply interested in the proposed coinages for the United States, during the Revolution, and wrote this very important letter from Passy, on the 2nd of October, 1779: to Edward Bridgen:

"Dear Sir: I received your favor of the 17th past, and the two samples of copper are since come to hand. The metal seems to be very good, and the price reasonable; but I have not received the orders necessary to justify my making the purchase proposed. There has indeed been an intention to strike a copper coin, that may not only be useful as small change, but serve other purposes.

"Instead of repeating continually upon every halfpenny the dull story that everybody knows, (and that it would have been no loss to mankind if nobody had even known) that George the Third is King of Great Britain, France, and Ireland, &c, &c, to put on one side, some important proverb of Solomon, some pious, prudential or economical precept, the frequent inculcation of which, by seeing it every time one receives a piece of money, might make an impression upon the mind, especially of young persons, and tend to regulate their conduct; such as, on some, **The fear of the Lord is the beginning of Wisdom**; on others, **Honesty is the best policy**; on others, **He that by the plough would thrive, himself must either hold or drive**; on others, **Keep thy shop, and thy shop will keep thee**; on others, **A Penny Saved is a Penny Got**; on others, **He that buys what he has no need of, will soon be forced to sell his necessities**; on others, **Early to bed, early to rise, will make a man healthy, wealthy and wise**; and so on, in great variety.

**Reverses Suggested Portraying British Barbarities.**

"The other side it was proposed to fill with good designs, drawn and engraved by the best artists in France, of all the different species of barbarity with which the English have carried on the war in America, expressing every abominable circumstance of their cruelty and inhumanity, that figures can express, to make an impression on the minds of posterity as strong and durable as that on the copper.

"This resolution has been a long time forborne; but the late burning of defenseless towns in Connecticut, on the flimsy pretence that the people fired from behind their houses, when it is known to have been premeditated and ordered from England, will probably give the finishing provocation, and may occasion a vast demand of your metal.

"I thank you for your kind wishes respecting my health. I return them most cordially fourfold into your own bosom. Adieu.

B. FRANKLIN."

EDITORIAL NOTE—The latter part of Franklin's letter refers to Governor Tryon's Expedition into Connecticut, when he and his 2000 British burned and plundered New Haven.

**GIVE AMERICAN HISTORY A FAIR DEAL.**

Medal and Token collectors are interested in this controversy about the sort of history books now being used in our schools and colleges. Some of the very men whom the modern historians entirely omit from their "scientific and up-to-date" text books were the medal winners of those stirring early days. The Nathan Hales, the Anthony Waynes, the Ethan Allens, the Henry Lees, were characters whose deeds fire the imagination. They were the men always found "at the point of greatest danger." Wayne bore six or more wounds. He was the man who at Green Spring, with not over 1500 men, "discovered" the whole British army of Cornwallis before him and boldly attacked it, doing great execution and then retiring in good grace before superior numbers. His capture of Stony Point was perhaps the most daring feat of the entire War. He died Commander-in-Chief of the United States Army. Some of these historians speak very kindly of Benedict Arnold, also of the Tories, who accompanied the Indians on their errands of pillage and massacre against the settlements during the Revolution. Some of these gentry burned the home of the writer's great great grandfather. Mayor Thompson may be a politician but he has at least done the American public a service by calling attention to this abuse of our history by the modern writers, some of whom are professors in leading colleges. It is dis-

gusting but true that a few American professors have gone over to Europe and received applause for speaking slightly of our early statesmen, diplomats, presidents, soldiers, and our armies. It does not seem to the writer either fitting or kind for such lecturers to treat in this-wise their countrymen and the country where they get their living. They have ridiculed our patriotic societies, mentioning them by name and one smart aleck even had the temerity to refer in a veiled way to the Daughters of the Revolution. These gentlemen have friends on the editorial staffs of a few of our newspapers, who rally to their defense, although their comment is usually confined not to history or historical facts, but to ridicule and sarcasm. Mayor Thompson was recently given opportunity to air his side of the case as a history reformer through the columns of a monthly magazine, and his article was made up largely of quotations, to illustrate his points, taken from paragraphs of the history books he aimed at. Against this article of Thompsons were the printed attacks of five gentlemen opposed to him, most of them historical authors. As the mayor quoted actual excerpts he had his enemies the authors impaled on their own hooks, that is, the five could only ridicule Thompson, they couldn't retrieve their own printed words. Their replies were pathetically weak, and it was they who seemed ridiculous, not Thompson. We ask, why in this case were five men pitted against one? Not that we love Thompson specially, but only a question as to fair play.

#### THE TITCHENER COLLECTION COMES NEXT.

Our last sale of the season will consist of the extensive collection of ancient and oriental coins of the late Prof. E. B. Titchener, of Ithaca, N. Y. It is a sale of importance, and has over 10,000 varied coins, many of great interest and rarity, including over 100 in gold, as well as a group of Numismatic Books. To this collection will be added a session of varied material of other parties, which will make it an offering of general interest, which should attract much attention.

#### SOLDIERS IDENTIFICATION MEDALS OF CIVIL WAR WANTED.

Mr. Elder will pay 35c each for these tokens, which bear busts of McClellan and Washington and 75c for those with Lincoln's head; for plain tokens with simply inscription, name, regiment etc. 25c each. None will be taken at \$1 each, the price put on one or two by one of the dealers. Nobody collects them except myself so far as I know. I also want Franklin, Jackson, Van Buren and Clay medals new to my collection.

## A COIN SALE BEFORE THE CIVIL WAR.

## Some Notes on the Levick Sale, December 19th-20th, 1859.

It would have been interesting to present-day collectors to have been enabled to quietly peep into an auction sale room, held at the store of E. Cogan, 48 North Tenth Street, Philadelphia in 1859. Wm. C. Cook did the honors as auctioneer. This sale commenced at 7 o'clock P. M. and 976 lots were dispensed with in the two sessions. There was a plenty of fine old silver dollars including 1794, 1851, 1852, 1854, 1855 and 1858. Why shouldnt there have been as the latter had been struck only four or five years preceding, even if they are now rare. And those offered were proofs as a rule. Cogan listed an "1804 half dollar," but he wisely added to the description,—die altered to 1805. There were fine 1796 and 1797 half dollars. A planchet was offered with Fifty Cents or Half a Dollar—on the edge. And, think of it there were gems, of 1792, the half dimes, the Birch cent and another diameter smaller of same types. The fine 1838 silver dollar brought \$16, even if a proof. It has since had records of over \$400. There were fine patterns, a ring dollar in gold. Several of the cents, likely with eagles he called a type "Old buzzard". Lovett's series of Washington medals was already in evidence and in this sale. A fine lot of colonials were listed but Crosby's work had not been heard of and the catalog contained no references to numismatic works.

The cent collectors would have been in clover as most of the cents offered from 1796 down were uncirculated. The 1801 and 1809 cents were uncirculated, a condition not to be despised. The half cent collection was complete. Those from 1841 to 1849 brought an average of \$5.50 each.

The early political tokens had more of a call then than today, and we can well understand this because the early campaigns of Jackson, Van Buren, Harrison and Clay were still fresh in the minds of the token collectors. The store card collection was large and interesting. This was purely an American Coin, Medal and Token Collection. The items were measured by the "scale of the Numismatic Society of Philadelphia".

Mr. Cogan held another sale on May 21st and 22nd of the next year, and he charged fifty cents for a priced catalog with printed prices inserted opposite the lots. This was Cogan's own collection. I notice items which we still have and consider rare were so considered in those early days and when one considers the wide difference in the purchasing value of a silver dollar then as compared to 1928 many items sold for good prices, especially the rare tokens.

## A LIST OF SOME EARLY AMERICAN COIN SALES.

 ONE OF THE EARLIEST AMERICAN CATALOGUES OF ANCIENT COINS.

Perhaps the earliest printed catalogue, made in the United States which used a Greek alphabet in printing the inscriptions on Greek coins was issued by Messrs. Tuttle, Morehouse and Taylor, Printers at New Haven in 1863, or just sixty-five years ago. This catalogue, was made at the request of the College Library at Yale college. We must compliment these early printer's on the fine job and clear imprint. Listing the Greek coins in the college collection of that year, they included also the Latin inscriptions on Roman coins. This list, included also modern coins and consisted of forty-seven pages and an index.
